Sherri, Was the most Solid person I came in contact with, very helpful and compassionate, we shared the same type of business, she never was competitive, we looked out for each other, we went from friends to sisters ❤️

Sherri and I met and quickly bonded as not just friends, she was my sister. We had so much in common it was hard to believe we were not related. We shared so many deep conversations, laughs, tears, ideas and dreams. Sissy, I miss you already. My heart is broken but rest easy my sweet friend until we meet again…and we will meet again. I love you.

Sherry Johnson was once a very dear friend of mine. We used to call each other twin because she favored my mother so much. I'll never forget that! May you rest in Peace!
