“ Took care of Ms Evelyn while she was in OALH. She was on tower 2 and my tower was 3. They switched me to tower 2 that day. Right before I got off I did my last round with her, made her comfortable in bed. She reached for me and hugged me and prayed. I asked her if she was alright before I left and she said yes. When I return to work I went looking for her and was told she passed 😞 sending my condolences to the family

“ *I will remember the times on the basketball court and the coach had to say to her that it was a contact sport but not that much contact. I didn't like it when she guarded me because that meant I knew I was going home with a bruise or two. We would laugh about it after practice.*

Get your rest classmate.

Wishing you peace to bring comfort, courage to face the days ahead, and loving memories to forever hold in your heart."
