“ To My Great Aunt , You have been a role model to many young women in our family. I will always remember those fancy hats that you would style on Sundays. I have always admired what you have done with your kids & family and you was what a real women should be today. Like the old people would say you carry yourself well. Musset & dirty salad was the nick names that you and your family gave me. Even though at the time I didn't know what those names meant I knew when you called them to me I had better come quick and answer you. I love the old school life but we must move on to new school way of life but I will remember all that I have learned from you. I know you taking care of things up there and I will always carry you in my heart .

“ *My mother was not only a mother to her children and grandchildren but to all her nieces and nephews. She never met a stranger and she would open up her kitchen as soon as you walked in the door. She taught me the value of hospitality and sincere concern for others. I will miss you being here but I know God needed you more. I will take all that you taught me and spread it around to the grandkids. Don't worry about daddy. I got him. Our family moto is Guidry is Greatness and you and Daddy showed us that in every way. Love you forever.*
