“ *I met this brother at Dow Chemical working in the block dexco-we shared a like experience of being ostracized from our community. And once we learned that we begin to formulate a bond of friendship. We would talk about how beautiful it is to be doing the right thing and how we have to keep the blessings coming. I must say I was inspired by this brother because he was young and can weld real good. And he really love to manifest His gift. He was a good brother-Talked about how he loved to make good sacrifices for His family that they can be comfortable. Brother was good people. I pray this family be God's continual grace and mercy in this time of bereavement.*
