“ *To the Broussard-Semien family I hope you all find comforting in knowing that at John 5:28 Jesus says that all those in the memorial tomb will hear his voice and come. Then we all will see our love ones.*

“ *Hello, Ruby-I haven't used a lot of Apple products, but a copamny I worked with many years ago provided nothing but Mac computers, back when Apple was still a young copamny. I never really got used to them, probably for the same reason that I didn't like Windows much I was a DOS guy, and liked getting my hands dirty both Windows and Mac just seemed to be a little too glitzy for my tastes. But nobody can argue the fact that Apple has had a real impact on PC design, not to mention all their other product lines. I think that was largely due to Jobs' involvement in the design process. Thanks for stopping by and commenting. I hope you'll be back.Doc Sheldon recently posted..*

“ To the Broussard family, we all grew up together in Frilot Cove. Ms. Rita and Nuk Guy were like my aunt and uncle. Mary and her sibling were like brothers and sisters to my sister Ruth and I. Ms. Rita as with all your children, you and Nuk Guy raised a beautiful and loving daughter. To the brothers and sisters, remember all the good times and by the way, Mary will be looking at you from heaven. To the husband and nephew, we all love Mary as much as you do. God blessings to the whole family.
